

2012 Spring League College Exposure Player Development

TRAINING ATHLETES TO SUCCEED AT THE NEXT LEVEL

Jack City Softball is now taking applications for the 2012 Spring Player Development and Exposure Program for high school athletes who want to significantly improve their game and gain invaluable college exposure. The spring session will feature a variety of exposure opportunities and recruiting tools while providing advanced instruction designed for maximum player development within a highly competitive environment.

The official season will run from February until early May at various facilities in Rutherford County. Prospective participants are encouraged to apply early as there are only a limited number of spots available for the 2012 season. The program is designed for a specific number of players, so once the maximum number of participants have been evaluated and accepted to the program, no additional players will be added. Registration and full details are available at jackcitysoftball.com
